

# Writing a Report

## Exercise 18

В упражнении использовано задание финала ПВГ 2014/15, 10–11 класс, вариант 3.

(60 minutes, 250–300 words)

An English magazine has a weekly column called “Education in the 21st century”. As part of their new investigation into educational issues, they have asked you to write a report based on your own research of **the second language rates among students in 2005-2014 in the UK**.

In your report:

1. Compare the rates of German, French, Spanish and Polish in 2005 and 2014.
2. Explain the changes in rates.
3. Name the possible future changes regarding the choice of a second language in the UK.

Do not forget to follow the rules of report writing and use an appropriate style.
