(60 minutes, 250–300 words)

An English magazine has a weekly column called “Family values in the 21st century”. As part of their new investigation into issues of family building, they have asked you to write a report based on your own research of **the average age to get married in Russia and the UK in the 21st century**.

In your report:

1. Compare the average age to get married in Russia and the UK in 2000–2014.
2. Explain the changes reasoning your suggestions.
3. Name the possible future changes.

Do not forget to follow the rules of report writing and use an appropriate style.
